

Carton Sealer Gear Motors

Features of J-Series Motors

- Exceptional design for carton sealers only.
- Low noise and low temperature rise.
- Unique design of averting oil leaking.
- Aluminum housing with coating process.
- Impact size.
- Made in Taiwan.

Low Noise

Through processed handling to reduce the noise and operate smoothly.

Low Temperature Rise

With several special designs for Carton Sealer Machine, J220 motor has low temperature rise without damage heating.

Pneumatic Test

All of gearheads are under restrict inspection about the precision of gears to ensure no oil leaking.

CE, UL Certification

Products certified by CE (Europe), UL (USA, Canada) int'l standards.

*Please inform us in advance.
