

ECODIVER

Multipurpose pressure pumps for use in wells, cisterns, lakes, and other places for dewatering and irrigation (2,3 and 4 stages).

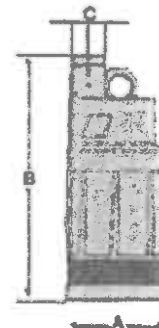

- Pressure up to 64 PSI
- Manufactured with non-corrosive and rust proof materials
- Silent alternative to surface pumps
- Ceramic shaft sleeve for long life and sand resistance
- Energy efficient motor with double ball bearing construction, stainless steel shaft and motor housing; plus built in overload protection
- Environmentally safe, oil-free
- Perfect cooling allows running of pump even if partially submerged
- Stainless steel intake screen
- Multihose adapter for 3/4" garden thread and 1" thread or clamp version
- Pumps come manual or with automatic control
