

Efficient and maneuverable

The FORSTHOFF-P2 has been put to effective use in the tent, tarpaulin, advertising banner and industrial fabrics industries. Forsthoff has produced overlap welders for 25 years and that experience has lead to the advanced FORSTHOFF-P2.

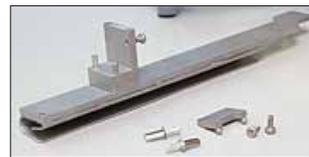

The FORSTHOFF-P2 offers innovative features:

- Narrow and maneuverable for crease-free welding
- Telescopic guide handle that can be conveniently adjusted to the user's body height
- A new generation of nozzles for faster welding speeds
- Modern generation of gear motors providing a speedy and powerful drive for the welder

The new FORSTHOFF-P2 is a universal welder and is available in four selectable basic models for 20, 30, 40 or 45mm overlap welding. In addition, the FORSTHOFF-P2 easily converts to an alternative overlap width for seam welding and webbing welding.

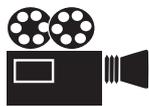

Hem Guide

The hem guide folds the material over into the welding position as the machine automatically rolls forward, allowing the blower heat and pressure wheel to create a consistent, strong hem along the edge of the material.

Specifications	
Voltage	230 V, 50/60 Hz
Temperature	68 - 1290°F (20 – 700°C) infinitely variable
Weight	38.5 lbs. with 23' (7m) connection cable
Dimensions	21 x 11 x 13¾ inches
Marks	

Model#	Item	FOB CA
F1100P2	P2 Automatic Welder - 20mm Overlap Welding, 3300W, 230V	\$4,500
F1107P2	P2 Automatic Welder - 40mm Overlap Welding, 4000W, 230V	\$4,500
F1106P2	P2 Automatic Welder - 30mm Overlap Welding, 3300W, 230V	\$4,500
F1090P2	P2 Automatic Welder - 50mm Webbing Welding, 4000W, 230V	\$5,200
F3071L	Heating element 4000W 230V for F1125T Tube Blower	\$110
F3057	Heating element 3300W, 230V for F1125 L-Blower	\$110
F1091P2	Webbing weld kit 50mm including set of weights	\$1,490
F11242P2	Set of center weights	\$143
F1113P2	Hem welding Guide for 20mm and 30mm hems	\$285
F1109P2	Hem welding Guide for 40mm and 45mm hems	\$285

See Abbeon.com for our complete line of automatic welders and **VIDEO** on their use.

P2 AUTO-WELDER 120V

COMPACT AUTOMATIC OVERLAP ROOF WELDING MACHINE

P2 in Optional Wheeled Case

- 120V - 2200W unit uses convenient 20 amp "household" power
- No large, heavy generator needed (if power is available)
- Will run on small 3000 watt generator (if needed)
- Easily welds edge metal
- Lightweight, 38 lbs. comes with extra weights for welding thicker material
- Convenient design is perfect for both commercial and residential repairs

F1108P2 - P2 Auto-Welder 120V \$4,500
