

ITEM 106051 MGB-E-A2-106051

Description	Technical data	Accessories	Downloads
-------------	----------------	-------------	-----------

Features

- › Escape release out of the danger area
- › Mounted on mounting plate
- › With red handle
- › 118 mm long

Escape release

The safety system MGB can be complemented by an escape release module. The escape release enables people locked in to open the locked safety guard from inside the danger area. It is only necessary to actuate the door handle. The actuating direction automatically adapts to the actuating direction of the handle module and does not need to be changed. The actuation axis supplied is suitable for profiles up to 40 mm.

Extended actuation axis

Optionally, a 250 mm long actuation axis (instead of 110 mm) can be ordered for thicker doors or profiles > 40 mm. The axis can be shortened to the required dimension.

Mechanical figures and environment

Housing material	Die-cast zinc, stainless steel powder-coated, brass
Ground	
	Net 0,50 kg
Ambient temperature	-20 ... 55 °C
Mechanical life	1 x 10 ⁶
Installation position	Any

Miscellaneous

Additional feature	With mounting plate
