

DC103

Magnetic Contact Surface Mount, Biased

Aritech DC101 series

The Aritech DC101 series surface mount magnetic contacts are designed for use in installations where a small, sealed unit is required. The reed switch is totally encapsulated in Aritech's exclusive polyurethane potting compound preventing moisture from entering the switch and causing false alarms.

Easy installation

The 15 mm standard gap distance allow for fast, easy installation and prevents false alarms from loose fitting doors. Recessed mounting holes make for clean-looking installations. Several models are available including wide gap, SPDT, and high security.

Standard Features

- Comprehensive product range
- Convenient surface mounting
- Standard 2 m wire length
- Tamper loop provided
- Neat and tidy design
