

## Hand-held welding torches Mini-Electronic

Small and light-weight hot air welding gun.

### Product description

Due to its light weight and handiness, the insulated welding gun MINI-electronic is perfectly suited for plastics fitters and tank manufacturers.

The heat output of 1500 W 230 V is infinitely variable between 20 and 700 °C and is kept constant by an electronic control system. In addition, it is possible to adjust the required air flow by means of an additional rotary knob.<sup>4</sup>

The device requires an external air supply, such as a side channel blower, fan or compressor. We additionally offer a mobile hand-held fan that is easy to carry and supplies the required air on construction sites and in the field.

If necessary, it is possible to equip the welding gun with a threaded slip-on nozzle M 10. This slip-on

nozzle permits the use of screw-on quick-weld nozzles, which are preferably used in plastics and tank construction due to their high degree of stability.

The welding gun MINI-electronic can be equipped with numerous accessories for welding plastic plates, pipes, components and tanks.

At construction sites and for use in the field, the additionally available hand-held fan supplies the required air flow.

## Technical specifications

Model	MINI-Electronic
Voltage	1500 W 230 V 50/60 Hz or 1300 W 120 V 50/60 Hz
Temperature	20-700 °C, infinitely variable
Air requirement	80 - 250 litres/min
Weight	0.395 kg + 3 m connection cable
Electrical safety	II /  (Double insulated)
Dimensions	Length 270 mm, handle diameter 54 mm

## Areas of applications

- Plastics fitters
- Tank construction
- Manufacturing of ventilation pipes
- Electronics and electrical engineering industry
- Mechanical engineering
- Manufacturers of signs and synthetic materials

## Accessories

**Item No. 5012**  
Speed welding nozzle for nozzle item No. 4000, 5 mm, round

**Item No. 5014**  
Speed welding nozzle for nozzle item No. 4000, 7.5 mm, triangular

**Item No. 5000**  
Speed welding nozzle 5,7 mm triangle, for nozzle 5 mm round

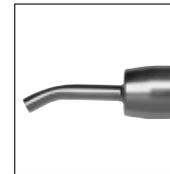

**Item No. 5001**  
Speed welding nozzle 7 mm triangle, for nozzle 5 mm round

**Item No. 5002**  
Speed welding nozzle 5,7 mm triangle, to screw-on, for adaptor M10

**Item No. 4007**  
Adapter with thread M 10

**Item No. 4008**  
Soldering nozzle 10 mm round

**Item No. 5016**  
Shrink reflector

**Item No. 5010**  
Speed welding nozzle for nozzle item No. 4000, 3 mm, round

**Item No. 5011**  
Speed welding nozzle for nozzle item No. 4000, 4 mm, round

**Item No. 5015**  
Tacking tip for nozzle item No. 4000

**Item No. 5004**  
Tacking tip for nozzle item No. 4007 (M10)

**Item No. 5005**  
Speed welding nozzle for nozzle item No. 4007 (M10) 3 mm round (M10)

## Accessories

**Item No. 5008**  
Speed welding nozzle  
for nozzle item No.  
4007 (M10),  
5 mm triangular  
(M10)

**Item No. 5009**  
Speed welding nozzle  
for nozzle item No.  
4007 (M10),  
7.5 mm triangular  
(M10)

**Item No. 5017**  
Tacking tip hooked for  
adaptor M10

**Item No. 4011**  
Insulating tube

**Item No. 2007**  
Heating element 1500  
W, 230 V

**Item No. 5021**  
Weld seam slide

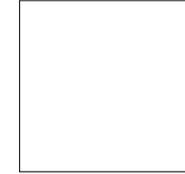

**Item No. 7000**  
Pressure roller two-  
armed, 45 mm

**Item No. 6998**  
Pressure roller two-  
armed, 45 mm, ball  
bearing mounted

**Item No. 7001**  
Pressure roller one-  
armed, 45 mm

**Item No. 6997**  
Pressure roller one-  
armed, 45 mm, ball  
bearing mounted

**Item No. 7005**  
Pressure roller 5 mm,  
for round wire

**Item No. 7010**  
Quarter moon knife

**Item No. 7011**  
Grooving tool

**Item No. 7012**  
Metal case
