◇DATALOGIC

Quick Link (QL & QLM) connectivity accessories provides an easy, fast, modular and cost-effective solution whenever 'plug-in connection" is preferable.

QL Series is compatible with DS2100N, DS2400N, DS4800, Matrix 210™, Matrix 410™ and Matrix 450™.

QL300/500 and QLM500/600/700 link 1D/2D code readers to the Power Supply, External Trigger, IDNET™ network, Digital I/O and Communication connections including interface to Serial, Ethernet, Ethernet/IP, Profibus and Profinet.

QL100/150/200 provides an ID-NET™ 'T" connector. This is the most effective way to build the ID-NET™ network by passing through power and network's signals. Service port connection (QL150) and tap power connection (QL200) are optionally available.
