

## STRAINER of carbon steel with weld ends **38500 series**

Edition 15-07-2015

### Operating and construction

Högfors strainer of carbon steel has been designed for collecting dirt and impurities in pipesystems. Strainer is used for example in district heating networks and in industry. Strainer 38500 has a body of carbon steel. Filter is of stainless steel and the filter mesh is 30 (0,6 x 0,6 mm). Perforation ratio is ca. 40%. Strainer can be drained by removing the stainless steel drain and flushing plug. Filter can be replaced by removing the cover.

Nominal dimensions	DN 15 – 150
Nominal pressure	PN 40 DN 15 – 50 PN 25 DN 65 – 125 PN 16 DN 150
Connection	Weld end
Working temperature of liquid media	-20°C... +200°C
Safety	Conform to the requirements of the Council Directive 97/23/EC on Pressure Equipment, marking: Class: gas, group 1.
