**IMPORTANT:** J-28 and J-40 Torch handles are supplied with "B" size regulator accessory reverse flow check valves, to be used on the regulator outlet connection.

**NOTE:** All Victor torch handles with "B" size fittings are equipped with built-in reverse flow check valves.

### TORCH HANDLES WITH BUILT-IN CHECK VALVES!

Victor Torch Handles are built tough to withstand rugged jobsite conditions. Threaded assembly permits quick, economical repair if service is necessary. And all torch handles with "B" hose connections have Victor's patented built-in check valves for added safety.

**BUILT-IN CHECK VALVES FOR ADDED SAFETY**

**PATENTED**
