

Relative and differential pressure transmitter type 694

Pressure range

-0.5 ... 0.5 mbar / 0 ... 1 – 50 mbar

Type 694 pressure transmitters are available with or without integral digital display. 0...10 V / 4...20 mA outputs are available as well as square.

Individually ranged sensors ensure optimum accuracy and long term stability of measurement, and the variety of options means great flexibility, not only in climate control, but also in industrial and medical fine pressure measurement.

- Compact construction
- Fast, easy mounting. Housing incorporates integral bracket for wall or ceiling mounting. Snap-on cover with a single screw
- Available with or without LCD display
- Available with or without square root extraction
- Available zero point and full scale adjustable
- Attractive price / performance ratio
