

KAPTIV[®]-CS

Electronic level sensed condensate drain with alarm function

PRODUCT FEATURES

The KAPTIV-CS (compact solution) is a compact electronically operated level sensed condensate drain which offers zero air-loss during the condensate discharge cycle.

The KAPTIV-CS is cost effective and offers a rapid pay-back period due to a competitive pricing level, low stocking cost, zero air-loss and energy saving aspects.

The KAPTIV-CS can be installed in all compressed air system components up to 100 m³/min regardless size and climate zone – Only 1 model needed!

The new and improved design, the robust industrial housing, the alarm feature and the 2/2 way direct acting valve assembly make the KAPTIV-CS a reliable solution for all compressed air system applications.

The KAPTIV-CS offers an integrated mesh strainer (to prevent large particles from entering the valve orifice), is easy to disassemble and is service friendly.

The alarm feature can be connected to the JORC WARNER[®] to never miss out on periodic maintenance opportunities.

**Compact
solution!**

COMMERCIAL BENEFITS

- Competitive compact zero air-loss draining solution.
- Capacitive level sensing technology saves air, energy and money.
- Rapid pay-back period due to competitive pricing level and reduced stocking costs.
- 1 model covers up to 100 m³/min. compressor capacity.
- No sizing charts required.
- The KAPTIV-CS can be connected to the JORC WARNER[®].
- Special module colour available for private label branding purposes.
- Operating pressure up to 16 bar.

TECHNICAL ADVANTAGES

- Alarm function (NO or NC) as a standard.
- Successful draining of condensate due to large orifice (also heavily emulsified condensate).
- Easy installation.
- Visual display of operating status.
- Integrated strainer.
- Direct acting valve assembly, ensuring reliable discharge operation.
- Robust aluminium housing.

Opportunity:

The **KAPTIV[®]-CS** can be connected to the **JORC WARNER[®]** (compressed air condensate management warning system), offering you the advantage of being alerted when maintenance opportunities arise.

KAPTIV[®]-CS

Electronic level sensed condensate drain with alarm function

DIMENSIONS (mm)

Multiple (3) inlet options

Integrated mesh strainer to protect the valve.

The KAPTIV-CS can be connected to the JORC WARNER[®] (consult factory for more information).

SPECIFICATIONS

Maximum compressor capacity	100 m ³ /min.
Min./max. system pressure	0 bar / 16 bar
Valve type	2/2 way, direct acting
Valve orifice	4.5 mm
Valve seals	FPM
Inlet connection	1/2" (BSP or NPT)
Outlet connection	1/4" (BSP or NPT)
Inlet height	11 cm (top) and 1.5 & 7.5 cm (side)
Minimum medium temperature	1° C
Maximum medium temperature	50° C
Supply voltage options	230VAC / 115VAC 24VAC / 24VDC
Connectors	DIN 43650-B

Serviceable valve	Yes
TEST feature	Yes
Environmental protection	IP65 (NEMA4)
Integrated mesh strainer	Yes

Alarm contact options Alarm Normally Closed (NC) / Alarm Normally Open (NO)

Three step disassembling to service the drain

1. Unscrew the 4 bolts

2. Remove the top part

3. Slide off the electronic module

FIND US ONLINE

At www.ultra-filter.com you will find a wide selection of filtration products ready for you to order.

ABOUT US

In 2010, Ultrafilter Scandinavia ApS was established in collaboration with ultrafilter GMBH, with the intention of selling compressed air and process filtration products to the Nordic countries.

Today, the sale doesn't end at the Nordic countries but also include the Baltic countries, Poland and many others. We produce and distribute filters and filtration products for compressed air, gases, water, liquids, Nitrogen and Oxygen Generators, as well as a variety of services and testing equipment.

Our warehouse is located in Denmark, and delivers daily to all the Nordic countries and much of the world.
