Rounds label corners
for ultimate durability
and visual appeal.**PeelGuard**Automatic Trimmer
Rounds Label Corners to
Reduce Peeling and
Improve Appearance.

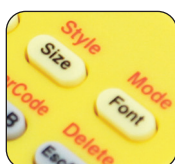

**Offers Eco-Friendly Functions
Making Labeling, Barcode and
Heat Shrink Tube Printing Easier,
Better and Less Expensive**

The K-Sun Green Machine® 2020LSTB is the most advanced and eco-friendly electronic label, heat-shrink tube, and bar code printer on the market today. It features a new high-intensity 16-character, 4-line **backlight display** for easy identification in all lighting conditions. **Unique Easy-Font size and style direct selection keys** eliminate all the hassle of finding and selecting type sizes and styles. Direct access keys for wire wrap, patch panels, and flagging simplify electrical, cable and wire identification. Also included is the exclusive **PeelGuard® electric tape trimmer** that rounds corners for ultimate durability and professional appearance of any label if desired. Has Flash-Rom memory so no hazardous internal battery, 99 file memory, and prints up to 8-lines of text. Auto or manual tape cutting feature. Add barcodes (8 formats), 1000 symbols, and multiple type effects to increase label readability and impact. Includes 14-font styles and 7 sizes. Auto alphanumeric sequencing, repeat, and mirror printing add to the flexibility of label and heat shrink tube creation. The Green Machine® offers 12 languages and runs on batteries or a universal worldwide 120 V, AC power adapter that meets all the USA, CSA, EU, UK, CE, UL electrical standards and requirements for safety and energy reduction. The printer contains no-lead parts and is halogen free. It contains many other energy and eco-friendly aspects and components. Made of industrial grade high-impact plastic, the Green Machine® is designed for **field or desktop use**. A standard QWERTY style keyboard makes text entry fast and easy. It prints on over 105 different tape sizes and colors (1/8", 1/4", 3/8", 1/2", 3/4" and 1") 15 heat shrink tube sizes and colors (1/8", 3/16", 1/4", 3/8" and 1/2") and 1-wire wrap tape size. The Green Machine® makes more durable and better-looking labels, saves money and energy, and helps the environment too!

Includes: Green Machine® 2020LSTB Printer, 6-AA Batteries, AC Adapter, one tape cartridge, manual and tape liner cutter tool. (Optional carry case available).

K-SUN **BEE3-EZ+****Wide Format Heat Shrink Tube and Label Printer**

The K-Sun BEE3®-EZ+ is the professional's best choice for wider heat-shrink tube identification and general custom labeling of instruments, wires, cables, panels, terminals, face plates, tools, and equipment.

The BEE3®-EZ+ offers 14 different heat-shrink tube sizes and colors including the wide format 1/2" size. **Please note:** The BEE3®-EZ+ printer works with all shrink tube sizes except 3/8".

More heat-shrink tube material in each cartridge offers better value and convenience. Plus, save up to 50% off the cost of heat-shrink materials compared to competitors.

The BEE3®-EZ+ has easy-to-use front-loading operation and transparent cartridges for easy supply identification and auto or manual tape and heat-shrink tube cutter for speedy label production and reduction of tape waste. New "Font" and "Size" hot keys make it easy to select from 5 common sizes and 14 common font styles. Easy-to-carry and store in office, shop or truck.
