

Hydraulic hand compression tools and hydraulic compression head

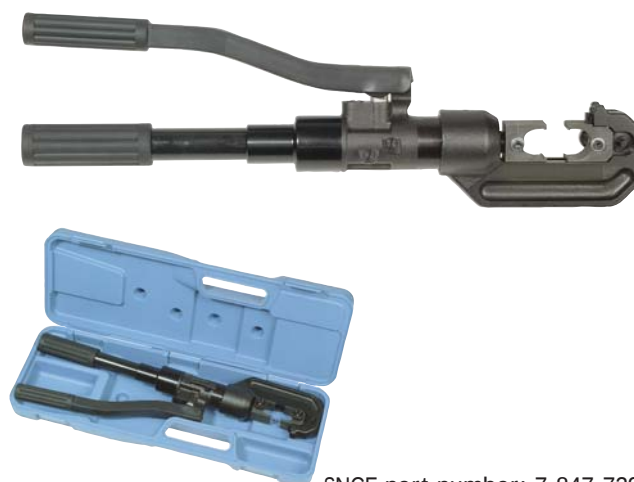

Crimping of terminals

Hydraulic hand tool

• **General features:**

- hydraulic hand tool
- power: 54 KN
- crimping of terminals from 10 to 70 mm²
- two pressure level
- automatic release
- die lock system
- head tilting on 180°

Delivered in individual box with technical instructions

SNCF part number: 7-847-7296

Part number: TR 1461

Hydraulic compression head

• **General features:**

- hydraulic compression head
- power: 100 KN
- crimping of non-insulated terminals from 10 to 95 mm²
- corrosion preventive protection (nickel plated cap)
- die locking system
- to be connected to 700 bars hydraulic pumps or sets (see page 47)
- delivered with female semi-coupler part n°: RKF-M38NPT

Part number: TR 1462
